

WP4 – Dissemination

WP leader: partner 5, ITU – Istanbul Technical University

The aim of this workpackage is to disseminate the results of the survey and to raise the awareness of both decision makers and researchers about gender equality in research and development.

The **synthesis report** will be published in English and it'll be disseminated among universities, decision and policy makers all over Europe. A conference will be organised at European level in order to raise the awareness of the scientific community on the issue of female careers in science, to present the findings of the university reports and the synthesis report and to discuss the results with the representatives of other universities from all over Europe, as well as some representatives from the USA. Further aim of the conference is also to discuss the experiences and existing good practices of other universities.
